Stay on top of it
with PowerTag

Give your business a competitive edge with PowerTag wireless energy sensors

With PowerTag™, you can add innovation to any project with one simple action. Even in panels where space is at a premium, you can easily tag circuit breakers to help your customers reduce costs and improve efficiency.

Connected by EcoStruxure™ Power – Schneider's IoT-enabled, open, and interoperable architecture – PowerTag helps you delight your customers with a solution that's small in size but large in impact.

Monitor it. Secure it.* Tag it.

* Secure it: As part of the Acti 9 communication system, PowerTag monitors loads and identifies load imbalances and overload levels before a trip occurs. PowerTag also alerts you to voltage losses, so you save time recovering your installation in the event of load downtime. An email alert means you can take preventive action thus avoiding potential downtime.
